Jakarta, Indonesia | +62 821-1132-8602 | fauzanabdulhakim@gmail.com
LinkedIn | GitHub | Portfolio | Google Play Developer

PROFESSIONAL SUMMARY

Mobile Application Developer with 5+ years of professional experience in software development and IT operations, specializing in Flutter and Android development using Dart and Kotlin. Experienced in independently building mobile applications, developing web-based systems, integrating backend services, payment gateways, and order management workflows. Hands-on experience with Go, Laravel, Firebase, Supabase, SQLite, and MySQL, as well as Google Play publishing, application maintenance, and continuous improvement.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Kotlin, Java
Backend & Web: Go, Laravel, React
Database & Cloud: MySQL, SQLite, Supabase, Firebase
Integrations: REST API, Midtrans Payment Gateway, Order Management
Tools & Release: Git, Android Studio, VS Code, Google Play Console, Mobile Ads Integration
Additional: Python, MikroTik, Server Management, Network Security, IT Troubleshooting

PROFESSIONAL EXPERIENCE

Mobile Application Developer (Official title: IT Staff)

PT Dwipa Kharisma Mitra | 2025 – Present

- Independently develop the company's internal mobile application using Flutter.
- Build and implement mobile features to support internal business and operational workflows.
- Focus on the mobile application layer; the company system uses a MySQL database.
- Maintain the application, resolve bugs, and deliver feature updates based on internal user requirements.
- Provide additional IT support as part of the official IT Staff position.

Logistics Administrator

PT Mitra Adhi Wasana | Jakarta, Indonesia | 2021 – 2025

- Processed and managed an average of 200+ vehicles per day for inter-branch deliveries.
- Prepared daily logistics reports that helped improve vehicle tracking accuracy to 95%.
- Coordinated distribution schedules, contributing to a 20% reduction in delivery delays.
- Simplified vehicle records through an internal digital data-entry process.

Administrative Staff

PT Kharismamas Indo Putra | Jakarta, Indonesia | 2020 – 2021

- Managed and processed client documents and prepared administrative reports.
- Prepared monthly stock reports to support warehouse inventory management.
- Standardized daily reporting formats to improve consistency and reduce data-entry errors.

SELECTED PROJECTS

GameRank – Retro Game Emulator | **Flutter / Android** **Project link**

- Independently developed and published an Android application on Google Play.
- Continuously maintain and update the published app, including bug fixes, optimization, and feature development.
- Integrated in-app advertising and handle ongoing production maintenance.

ZHNTopUp | **Flutter, Go, Midtrans** **Project link**

- Independently developed the project using Flutter and Go.
- Integrated Midtrans payment gateway and implemented order-processing workflows.

Kasiran POS | **Flutter** **Project link**

- Developed a Flutter-based point-of-sale application and published it on Google Play.
- Implemented order-management functionality; the application does not use a payment gateway.
